Manufacturers keep America running. We as a nation are working together to help ensure those on the front lines of this crisis have access to the personal protective equipment they need. **Contact KTROX today at 847-986-8700** for a no obligation consultation regarding the optimal socially conscious gloves and products to meet your specific needs and increase your ROI.

Satisfied Customer Testimonial

"This is a great glove and a tremendous value! They not only offer very generous protection, but are reusable, can be washed and wear like iron! We use them for light material handling, buffing/polishing, straightening and anywhere a good quality glove is required. You maintain dexterity and can still pick up and hold small parts. I would recommend to a friend and will buy again!"
